FABRIC SWATCH

Velvet - Motion/BF

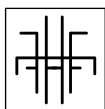

We felt bringing something back to life was appropriate for this range of fabrics; with their muted tones, understated look and feel. Variations in colour and plainness give it a revived look and feel, as if they have been brought back to life for modern furnishing...

Flax - Aria

Many different types of things or people being included in something; a range of different things or people. We admit this is different and that is why we wanted to use it. With its weave and colours, it can be a great fabric to set off a colour theme with texture.
